Pres:

I am not sure what happened but we really appreciate all your efforts. Today I signed the lease for the other building that you helped us secure.

You have been a great help throughout this very difficult period. The citizens and particularly the police department owe you a sincere debt of gratitude.

Thanks,

C. Ray Nagin - Mayor

2010:We made it happen!

Subject: 5th District Police Station

Cynthia:

You stated at last weeks City Council meeting the City "had renovated one building with city funds and that the 5th district (police station) was evicted from that building." I have been called by a number of people in response to your comments asking "why I would put the police on the street." I am disappointed the public officials attending the meeting with full knowledge of the facts surrounding the 5th District Police occupancy
