Dr. George-Hirons,

Thank you for your letter regarding the school. I appreciate greatly your attention to it and your commitment to the school's mission.

As my letter notes, Mr. Hunnewell will be providing additional recommendations regarding the board and leadership in the school, if such recommendations arise out of his initial interviews, discussions, and establishment of the CEO search. I agree with you that there are issues with the school's operations that go beyond the appointment of one person and have asked that such issues be detailed for me as part of the consultant's report.

I look forward to the work and to the teachers' continued successes with their students.

My best to you for the new year.

John
