Subject: RE: Food Truck Ordinance

There are some legal discussions we've had on this and I've reached out this morning to see if there has been any resolution to these issues. I'll get back with you as soon as I get replies.

Subject: Food Truck Ordinance

Hi Everyone,

I have attached the Food Truck Ordinance (29,497) and my section-by-section explanation of its proposed changes to the current law. It looks like the advertising requirement will likely be met by April 11, so Cm. Head will likely go forward with the Ordinance on that date.

Please let us know if anyone has any questions or concerns that we can discuss prior to moving forward with a vote.

Thank you,

Jonathan Harris

I'd say let's try to get with Matthew and/or Sharonda to see what we need to do legally. Then proceed from there.

Let me know what you think

Subject: food trucks

Hey Eric,

Since the food truck ordinance needs to be reintroduced, can we set a meeting sometime this week with whomever in the Administration needs to be there to work out the kinks? If doing something solely for food trucks is problematic, let's change the 100 non-renewable permits issued in addition to the 100 annual, renewable permits to encompass the other food vendors too. And if other things are problematic, let's change them before we reintroduce, so that there won't be political scuffles over non-political issues. Does that sound like a good idea to you?

If so, please help me schedule a meeting, and let's work out some issues before I have to introduce on March 21.

Thanks,
Jonathan Harris

Subject: quick food truck question

Hi Eric and Matt,

Do you think the following language would be easier to enforce than the language introduced in 29,398 (provided below)?

new language:

At all other times, it shall be unlawful for any peddler or vendor of food to cook, prepare, sell, or vend any food or merchandise from any location where there is a restaurant open for operation within 100 feet of the vendor. The provisions of this subsection will not apply if the vendor displays an express, written waiver of this proximity restriction from the restaurant or restaurants within the 100-foot proximity above.

old language (29,398):

It shall be unlawful for any peddler or vendor of food to cook, prepare, sell, or vend from a trailer, or other mobile temporary facility, or vehicle, or on foot, any food or merchandise within 50 feet of the front door of any lawfully operated restaurant, while the restaurant is open for operation. The provisions of this subsection will not apply if the vendor displays an express, written waiver of this proximity restriction from the restaurant or restaurants within the specified proximity above.

Thanks,
Jonathan

Councilmember,

I'm working on getting you the information you requested. I would suggest, if you are not already so inclined, that tomorrow's committee meeting be used as an information gathering forum rather than moving forward on a committee recommendation. I think it would be beneficial for us to hear public comment specific to the ordinance before finalizing our recommendations to you and ultimate position on the matter.
